Equipment Demonstrations

Balloon Pleating & Folding

FFS675S

- Configured for lean manufacturing
- Automated product handling
- Integrated balloon support
- PLC control, servo motor activation

Catheter Laser Bonding

LB1000

- Closed loop temperature control
- Closed loop laser power control
- Drop-in product loading
- PLC control with PC HMI

Heart Valve Testing

Accelerated Wear Hydrodynamic Performance

- Steady & pulsatile flow
- PIV
- Echo Doppler

Interventional Device Testing

IDTE2000™

- Test catheters, guidewires & stents
- Trackability
- Crossability
- Torquability

Marker Band Swaging

SW675S

- Band to band positioning up to 250mm
- Positioning accuracy ±0.3mm
- Automated lot/batch processing
- Bar code scanning
- Product lengths up to 180cm

Microscope Replacement System

TM Series

- Digital reticle overlays
- Heads up display
- 3x digital zoom
- Industrial PC with touch screen interface

Stent Securement Testing

SR1000

- Guide-type securement test
- Proximal or distal displacement
- Diameter control and force feedback
- Repeatable and reproducible data

Stent Crimping

SC1775S

- PLC control with PC HMI
- Protect coatings & polymer scaffolds
- Bar code scanning
- MES and networking ready

Transcatheter Heart Valve Crimping

HV200™/HV500™/HV950™

- Even, repeatable radial compression
- Single person operation
- Small foot print for lab/bedside applications
- Single-use and reusable configurations
