

Laser Bonding Equipment

LB1000

The MSI LB1000 Laser Bonding Equipment provides superior process control and feedback for proximal and distal balloon bonding, soft tip attachment, and other catheter and tube bonding applications.

- Closed loop temperature and laser power control.
- Drop-in product loading.
- Highly efficient and repeatable process.
- Cycle data acquisition and networking capabilities.
- Automated bond site alignment option.

MSI Advantage™
Equipment design and manufacture.
