TEXOLON

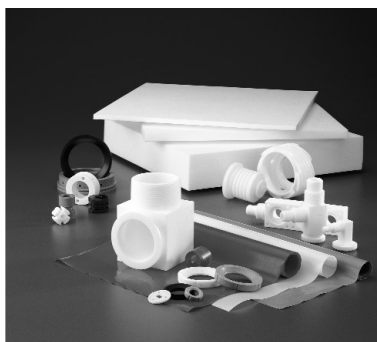

Your PTFE source for more than just stock shapes.

When fluid handling or material handling applications demand components of PTFE or other high-performance polymers to handle extreme temperatures or corrosive chemicals, TEXOLON products are the answer. From stock shapes made with virgin PTFE or modified with fillers to the manufacturing of intricately machined components, TEXOLON products offer a solution to fit any need.

Standard & Custom Shapes

Including TEXOLON products in the following formats:

- MOLDED SHEETS up to 48" x 48", & from 0.125" - 8.5" Thick
- SKIVED SHEETS from .001" to .375" Thick, & from 0.25" to 60" wide.
- MOLDED CYLINDERS TO 55" O.D.
- MOLDED RODS TO 43" O.D.
- REPROCESSED FILM
