

# DAMPERS

800-334-2027

***Design & Manufacture of rotary viscous dampers for Aerospace & Industrial Applications.***

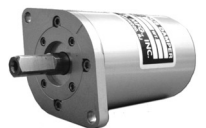

- *Made to precise tolerances.*
- *Damping rates from 0.5 to 200,00 in LB/RAD/SEC*
- *Input torques up to 4,000 IN/LB*
- *Temperature compensated & non-temperature compensated models available*
- *Quality systems to MIL-I-45208*

## **TYPICAL APPLICATIONS...**

Are As Rate Limiting Devices In Aircraft Flight Controls, Satellite Solar Panels & Antennae As Well As Industrial Mechanisms.

- **48 Hr. Delivery on Standard Units**
- **Industrial Equipment & Applications**
- **Precision Made To Exacting Tolerances**

**D.E.B. MANUFACTURING, INC.**
